OBJECTIVE

Aspiring Computer Engineering student from the Polytechnic University of the Philippines specializing in System Development, with experience in software development and AI-driven conversational systems. Seeking opportunities to apply and expand my knowledge in software engineering, embedded systems, and emerging technologies while leveraging strong analytical, programming, and problem-solving skills to contribute to innovative and impactful projects.

EDUCATION

Polytechnic University of the Philippines, Sta. Mesa

Manila, Metro Manila

Bachelor of Science in Computer Engineering – Major in System Development

2022 - 2026

SKILLS

Programming Languages: Basic knowledge in HTML, CSS, JavaScript, PHP, MySQL, R, Python, C++

AI/ML: AI Conversation Optimization, Natural Language Understanding (NLU), Automatic Speech Recognition (ASR), Quality Assurance (QA) Testing, Text-to-Speech (TTS)

Web & Backend: React JS, Node JS

Tools & Software: XAMPP, phpMyAdmin, Apache Cordova, Canva, Adobe Photoshop, Microsoft Office Suite (Excel, Word, PowerPoint)

Soft Skills: Active Communication Skills, Public Speaking Skills, Leadership Skills, Adaptable, Problem-Solving, and Time Management

PROJECTS

Phone Address Book

2023

A Graphic User Interface Address Book, implemented using Python

- Enables users to add, edit, view, and remove contacts.
- Includes search functionality by first name, last name, address, and contact number.

Interactive PUP Hymn Website

2025

An interactive lyric-sync web app developed using HTML, CSS, and JavaScript

- Features a scrollable lyrics section that highlights synchronized lines in real time as the hymn plays, with a responsive audio player.
- Implements smooth scrolling, dynamic styling, and mobile-friendly design for an engaging multimedia experience.

Basic Calculator Web App

2025

A functional web-based calculator developed with JavaScript, HTML, and CSS

- Supports arithmetic operations, memory functions, and base conversions.
- Implements equation parsing, real-time display updates, and error handling for invalid inputs such as operations with memory buttons.

Interactive PUP Vicinity Map

2025

An interactive campus map web app developed using HTML, CSS, and JavaScript.

- Features a responsive image map of PUP Manila Campus with hoverable landmarks that display dynamic pop-up information.
- Utilizes JavaScript functions for real-time interaction, enhancing user engagement and learning of campus sites.

PROJECTS

Integrated Filing System with Role-Based and QR Code Access

2026

Designed and developed a full-stack filing management system using ReactJS, NodeJS, PostgreSQL, and IoT integration.

- Built modules for user management, request processing, reports and logs, notifications, and QR-based authentication.
- Applied RBAC security mechanisms and automated workflows to improve document retrieval efficiency and monitoring accuracy.
- Performed black-box testing and system validation to identify issues and improve functionality and user experience.

AFFILIATIONS AND WORK EXPERIENCES

AI Rudder Technology Corporation

Product Delivery & Operations Specialist Intern

2025-2026

- Supported the implementation of AI conversational systems through dialogue script optimization, NLU enhancement, and ASR fine-tuning.
- Conducted recording analysis and QA testing to evaluate intent accuracy and identify NLU, ASR, TTS, and NER issues, improving system performance and user experience.
- Edited audio files, supported system updates, and improved operational workflows through process optimization.

Intellismart Technology Incorporated

Content Management & Technical Helpdesk Intern

2024

- Managed and updated digital content for Jollibee and Burger King branches nationwide, ensuring timely rollout of promotional materials via Magic Info Server.
- Communicated with clients to resolve content-related issues, coordinate update schedules, and provide technical support for Digital Menu Boards (DMBs).
- Performed technical tasks including DMB troubleshooting, server uploads, and internet connectivity checks.

PUP For Adults Only Dance Crew

Internal President

2023 - 2025

- Led organizational strategy and coordinated diverse team activities for cohesive performances and effective teamwork.
- Organized internal events, workshops, and training sessions to enhance member skills and foster community support.
- Document Management: Created, organized, and maintained letters, permission slips, sign-up sheets, and bylaws to ensure compliance and efficiency.
